

GOKULNATH N

Full Stack Developer

📞 91+ 8778144018 ✉️ gokulnath272006@gmail.com 🔗 linkedin.com/in/gokulnath-n 🌐 github.com/N-gokulnath 📍 Chennai, India

Professional Summary

Motivated Full Stack Developer and BCA graduate with a strong foundation in building web applications and AI-driven automation. A fast learner and collaborative team player, eager to contribute to dynamic software development teams, master new technologies, and deliver innovative solutions.

Technical Skills

Languages: Python, JavaScript, HTML5, CSS3, SQL
Frontend & Databases: React.js, Tailwind CSS, Responsive Design, Firebase, Supabase, Google Cloud Platform (GCP)
Developer Tools: Git, GitHub, VS Code, Chrome DevTools, Linux
AI Productivity: Generative AI Tools, AntiGravity, GitHub Copilot, n8n, OpenRouter, Google AI Studio, Claude Code, Google Stitch, Cursor AI

Education

Guru Nanak College

Bachelor of Computer Applications (BCA)

July 2023 – April 2026

Chennai, India

Saradha Matric. Hr. Sec. School

Higher Secondary Certificate (HSC)

March 2023

Gingee, India

Projects

CablePro | React.js, Next.js 14, Tailwind CSS, Firebase Firestore | [GitHub](#) | [Live](#) 2026

- Engineered a full-stack operator management platform featuring billing, payment tracking, and a real-time analytics dashboard powered by Firebase Firestore.
- Crafted a mobile-friendly user interface with dark mode, smooth animations, and financial reports, enhancing operator workflow efficiency by 25%.

RankFlow | React, Gemini 3.5 API, Tailwind, Prisma ORM, PostgreSQL | [GitHub](#) | [Live](#) 2026

- Architected a high-fidelity AI talent acquisition engine that automates resume screening by evaluating applicant profiles against target job descriptions.
- Integrated the Google Gemini 3.5 AI model using structured JSON response schemas to generate quantitative overall match scores and skill-gap matrices.
- Implemented database persistence using Prisma ORM with SQLite local fallbacks and production-grade PostgreSQL support, ensuring automatic schema synchronization.

LinkedIn Post Automation | n8n, AI APIs, Workflow Automation, LinkedIn API | [GitHub](#) 2025

- Designed an n8n workflow to generate topic ideas, create custom images, and auto-publish content to LinkedIn.
- Streamlined social media operations with an automated pipeline, reducing manual content creation overhead by 90%.

HTMLforge | HTML, Node.js, SQL, Docker, JavaScript | [GitHub](#) | [Live](#) 2026

- Created a web-based utility platform to convert raw HTML code and URLs into high-quality PDF documents.
- Optimized backend conversion processes to generate PDFs with sub-second response times.

Internships

ApexPlanet Software Pvt. Ltd.

May 2025 – June 2025

Web Development Intern (Virtual) | Certificate ID: APSPL252965

- Developed and implemented responsive web interfaces using HTML5, CSS3, and JavaScript, translating design mockups into interactive code.

Certifications

Introduction to Cloud Computing	Feb. 2025
Data Analyst Essentials – Cisco	Dec. 2024
Fundamentals of Generative AI – Microsoft	July 2024
Cybersecurity Essentials – Cisco	Nov. 2023

Languages

Tamil: Native Speaker | **English:** Advanced
